DETAILED ACTION

1. Claims 14-30 are in the application. Claims 1-13 have been canceled.

Drawings

2. The drawings were received on 1/28/2008. These drawings are not approved. Sheet one of the Replacement drawings includes two vertical lines that do not appear to be part of the drawings. Sheets two and three include a similar single vertical line. These lines create confusion on the drawings.
3. The arrangement of claim 19 where the production unit is a "floating unit", the trusswork of claim 24, and the partly closed arrangement of claim 25 should be shown per 37 CFR 1.83. No new matter should be added.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 14-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 14, the recitation that "the mooring devices have a vertical mooring rigidity for the loading buoy in the range of 20-75% of the waterline rigidity for the structure" is unclear. Initially, it is noted that the mooring lines are not connected to the loading buoy but to the surface element. Additionally, it is not clear how the rigidity of the mooring lines is compared to the rigidity of the floating structure 1. The same ambiguity applies to claims 15, 16, 21, and 22.

Regarding claims 15 and 16, it is noted these claims depend on a canceled claim. Regarding claims 15, 16, 21, 22, and 23 it is not clear to what "it" refers to in line 1 of these claims. The proportion in claim 30 is not clear. Is the draught in volume or area terms?
